Letter from the president

Dear Colleagues and members of RC 37 Sociology of the arts,

I hope this newsletter finds you all very well and I wish to set here a reminder for our next year conference in Porto Alegre. This next Forum will be particularly crucial for our Research Committee 37 as we will finalize those participating for contributions as a publication for ISA Sociology of the Arts. So there are here **two important deadlines** to set on the agenda.

Our “niche” perspective of sociology of the arts is growing in interest in many universities and it seems that the approach of understanding society from its creative and artistic expressions is finally finding more and more consensus. As I already wrote in the previous newsletter of March I am work on the idea of a publication (either a book or on an international review) that has the aim of being a sort of grounding publication of the sociology of the arts RC 37, so to open a dialogue, also on a written level, among all those who are working on the relation between art and society on a world scale and in many different ways.

So, I order to have an idea of how many of you can be interested in this project, I ask that all those of you who are willing to participate send directly to me (ilaria.riccioni@unibz.it) **by the 30thst of November 2019** a

proposal with his idea for a publication article, title and affiliation that should be no more of 300 words. The topic can be a theoretical as well as research results one on the social impact of arts, so it can be regarding transformation of social imaginary, social change, institutions, tools of artworks impacting social order or organization, democracy, social cohesion and community, social theory. Every issue can be accepted, every kind of art is welcome. The two main criteria for selection will be: the kind of methodology used (or theories) and the connection between art and its social impact.

Keep in mind the deadline for the next **V ISA Forum of Sociology Challenges of the 21st Century: Democracy, Environment, Inequalities, Intersectionality. Porto Alegre, Brazil July14-18,2020** and submit an abstract on-line before **September 30, 2019 24:00 GMT** <https://www.isa-sociology.org/en/conferences/forum/porto-alegre-2020>

Only 2 months left to submit abstracts to sessions organized by the Research Committees, Working and Thematic Group.

Don't miss the deadlines,

Enjoy the Newsletter and I hope to see you all in Porto Alegre!

Music Practices Across Borders
(E)Valuating Space, Diversity and Exchange. Transcript
2019.**

Connecting migration studies and the theory of valuation, this collection offers an interdisciplinary approach to the study of transnational music practices. Conceiving music as a practice not confined to audibility, the contributions reveal how music emerges in concrete situations through people, objects, techniques, meanings, and emotions in different parts of the world and during different historic periods. Values are thereby created and shared, and creative processes are evaluated in terms of diversity, space and exchange. This book presents cases of contemporary, popular and traditional music, festivals and trade fairs, albums and band projects, shedding light on the tensions between the transfer, reconstruction and creation of music in different contexts.
